# PROBLEM STATEMENT

## PROBLEM STATEMENT

Every project starts with a problem. In our case, the problem is that many beginners in web development do not have a simple, structured portfolio to showcase their skills. Without an online presence, it becomes difficult for them to stand out in job interviews or internships. Our project addresses this gap

# PROJECT OVERVIEW

## PROJECT OVERVIEW

Our project is a responsive portfolio website built using HTML, CSS, and JavaScript. The main objective is to provide a platform where an individual can highlight their education, skills, projects, and achievements. The portfolio is designed to be clean, modern, and easy to navigate.

# WHO ARE THE END USERS?

The primary end users of our portfolio project are students, job seekers, and professionals who want to showcase their skills. Recruiters and hiring managers are the secondary end users who can quickly view the candidate's profile and achievements through the portfolio.

# TOOLS AND TECHNIQUES

## TOOLS AND TECHNOLOGIES □□

For developing this portfolio, we used HTML for structure, CSS for styling, and JavaScript for interactivity. We designed and tested the project using Visual Studio Code. For version control and project hosting, we used Git and GitHub. These technologies ensured that the project was lightweight, efficient, and

# POTFOLIO DESIGN AND LAYOUT

## PORTFOLIO DESIGN AND LAYOUT

The portfolio design follows a clean and structured layout with simple navigation, making it easy for visitors to explore sections like About, Education, Skills, and Projects. The hero section introduces the creator clearly, while each segment is organized in a straightforward manner that highlights key information without clutter.

Overall, the design is minimalist

# CONCLUSION

## CONCLUSION □□

In conclusion, our project successfully demonstrates how a well-designed portfolio can enhance an individual's professional presence. It is lightweight, responsive, and customizable. In the future, we plan to enhance the portfolio with more animations, integration with LinkedIn or GitHub APIs, and adding a blog
